

NOTICE OF A PROPOSED CHANGE TO AN APPROVED RENEWABLE ENERGY PROJECT (REA No. 0494-99WL4Q)

For GoldLight
By Canadian Solar Solutions Inc.

Project Name: GoldLight

OPA Reference Number: FIT-F9LD355

Project Location: Part of Lots 8 and 9, Concession 5, in the Town of Georgina, Region of York, Ontario

Dated at the Town of Georgina this 10th of September, 2014

GoldLight LP was issued a Renewable Energy Approval on September 11, 2013 in respect of the GoldLight project. Information with respect to the decision on this project can be viewed on the Environmental Registry by searching 011-7810.

GoldLight LP (a subsidiary of Canadian Solar Solutions Inc.) is proposing to make a change to the project and the project itself is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 32.2 of the Regulation. This notice is being distributed to make the public aware of a **proposed change to the project**.

Project Description and Proposed Changes:

Pursuant to the Act and Regulation, the project in respect of which the Renewable Energy Approval was issued, is a Class 3 Solar Facility. An application has been made to the Ministry of the Environment to **change the project** and alter the terms and conditions of the existing Renewable Energy Approval. The proposed changes consist of minor technical changes to the preliminary design, including a reduction of the area inside the perimeter fence, an adjustment to the panel module mix (with fewer total modules to be installed), change in location of communications tower, reconfiguration of internal access roads, change to the substation manufacturer, and a change to the inverter station model and location and reduction in the number of inverters from 10 to 7.

If approved with these changes, the facility would have a total nameplate capacity of 10 MW. The project location, taking the change into account, is described in the map below.

Documents for Public Inspection:

GoldLight LP has been required to update the supporting documents that are required to form part of the application or which must be otherwise submitted to the Ministry of the Environment available to the public (entitled *Modifications Document for GoldLight*). Written copies of the draft supporting documents will be made available for public inspection on September 10, 2014 on the project website at www.goldlightsolar.com.

Project Contacts and Information:

To learn more about the project proposal or to communicate concerns, please contact:

Grace Pasceri, Permitting Manager- Solar Farms
